

# BRENNEKE ATS® Anti-Terror Slug

The Anti-Terror Slug  
from BRENNEKE

*The BRENNEKE ATS®  
shown penetrating  
a series of 1mm  
steel plates.*

*It is no secret that the threat of terrorist attacks continues to grow. Unfortunately, standard ammunition issued to regular police forces is usually insufficient to respond to these threats. Ammunition that is capable of stopping violence immediately and effectively should be available in every police car or emergency vehicle, along with the appropriate firearm.*

Standard handgun ammunition, along with most cartridges for automatic weapons, do not provide the power and penetration required to stop terrorism, especially in urban environments when the assailant might be in a vehicle, a building, or behind a barricade.

The new ATS® by BRENNEKE has been created specifically for these situations. The ATS® is a 12 gauge, 2 3/4" cartridge containing an extremely hard one-ounce (424 gr) slug. It can be used with any type of shotgun barrel. To distances of 50 yards, it provides exceptional stopping power that no standard ammunition can match.

# ATS®

# ATS<sup>®</sup> POWER & performance

The ATS<sup>™</sup> captured by high-speed photography as it penetrates 12 one-mm steel plates.

## Energy with supreme stopping power

The BRENNEKE ATS<sup>®</sup> hits with 5.7 times more power than a 9mm handgun round at 25 yards...4.5 times more at 50 yards. Compared to a 7.62x39 Kalashnikov rifle cartridge, the ATS<sup>®</sup> generates 36% more energy at 25 yards and 3.5% more at 50 yards. Plus, the tremendous power of the ATS<sup>®</sup> is released much more quickly at the target than with a pistol or rifle bullet.

The ATS<sup>®</sup> is not just about power. It is highly accurate, as evidenced by the five-shot, 1.4" group shown at left, fired at 50 yards using open sights.

## Compare ballistic data, and you'll see there is no comparison.

12 gauge 2 3/4" BRENNEKE ATS<sup>®</sup>  
One-ounce (424 gr) slug

Distance	yds	0	25	50
Velocity	fps	1680	1430	1204
Energy	ft lbs	2639	1913	1359

Caliber 9 mm Luger  
Full metal jacket 123 grain

Distance	yds	0	25	50
Velocity	fps	1181	1106	1047
Energy	ft lbs	382	335	300

Caliber 7.62x39 Kalashnikov  
Full metal jacket 123 grain

Distance	yds	0	25	50
Velocity	fps	2346	2267	2188
Energy	ft lbs	1508	1409	1313

There's more good news. The extraordinary performance and stopping power of the BRENNEKE Anti-Terror Slug requires no special equipment. It is designed to function flawlessly in any 12 gauge shotgun appropriate to law enforcement use—eliminating the need for specialized, costly firearms.

The only investment required is in the BRENNEKE ATS<sup>®</sup>—an investment that will repay itself every time police, military or security forces must deal with terrorist threats and other criminal activities.

*The power of the ATS<sup>®</sup> demonstrated during ballistic gelatin testing*
